EDUCATION

Post-secondary school Gloker, Krakow, IT specialist in db administration, web app. development (2016 - 2018)

Ukrainian Institute of Business, Kiev, Specialist. Marketing and sales management (1997 - 1998)

National University of Construction and Architecture, Kiev, Specialist. Construction machinery (1992 - 1997)

EXPERIENCE

TravelTECH, Krakow, PL - Frontend Engineer (Nov 2017 - May 2020)

- Collaborated with a team of back end engineers and UX/UX Designer to rebuild the Europodroze.pl service using JavaScript, JQuery, Smarty, PHP, MySQL, Bootstrap, Less, Gulp, Google Maps API.
- Developed new features for web services - user account, sign up/sign in with social networks, Google Maps, filters for search results, sending emails, info blog with WordPress etc.
- More than twice reduced the web application loading time by implementing lazy loading and other features.
- Improved performance of web application for all supporting browsers and devices.
- Collaborated closely with Software Engineers and Product Manager to solve front end application problems and improve the user experience of existing functionalities .
- Developed the front end part of a multi language web application.
- Built the frontend template from scratch and promptly learned Smarty to connect HTML to the PHP code.
- Implemented documentations for the front end part of the web application.

Velta LTD, Kiev, UA - Chief of sales department (Jan 2001 - Oct 2016)
